

MoGo Wireless Bluetooth Mouse Video Review

TigerDirect reviews Newton Peripherals' MoGo Wireless Bluetooth Mouse. This business card-sized device is basically a wireless Bluetooth mouse that can be charged/stored right inside your laptop's PC card slot. [Product page](#). [Video review after the jump](#).

MoGo MouseBT is a technologically advanced wonder, featuring patent-pending optics and a system that automatically levers the mouse up into your hand as you work. With no batteries to replace, the MoGo MouseBT recharges in less than an hour in the PC card slot of your laptop
